

Chemical Feed Systems

A measured step forward

Complication Free Chemical Feed Solutions

Turn-Key Chemical Feed Solutions

A Chemical Feed System from Lutz-JESCO America Corporation (Lutz-JESCO) integrates all the components you need for a successful system. You get the convenience of an integrated system backed by our extensive knowledge and experience. Why spend your time trying to integrate separate chemical feed components when Lutz-JESCO can do the thinking for you? With our Chemical Feed Systems, you get one integrated solution, with just one company responsible for every piece.

Lutz-JESCO Chemical Feed Systems - Making It Easy For You

Buying a complete Chemical Feed System offers you many advantages over buying separate components and configuring a system yourself:

- Lutz-JESCO builds, assembles, and tests every component in house, so we take responsibility for the entire system.
- Your Chemical Feed System arrives assembled, so you don't waste valuable time and money with assembly.
- Installation and start-up are simple – just three field connections are required. Simply provide power to the pump and complete the suction and discharge connections.
- Units are assembled so that you have easy access to all components, making routine maintenance and upkeep easy.
- Every Chemical Feed System is designed using the latest CAD software.
- We have established written specifications and drawings to make it even easier for you to select and incorporate the right system for your application.
- Buying a chemical feed system reduces cost, streamlines documentation, eliminates construction delays, and reduces start-up constraints.

Lutz-JESCO offers a wide range of packaged Chemical Feed Systems. Choose our standard pre-engineered systems for common applications or talk to us about a custom engineered system to meet your precise specifications.

Markets

Our Chemical Feed Systems are being successfully used in a wide range of industrial and municipal markets, including:

- Petrochemical
- Pulp & Paper
- Waste Water Treatment
- Power Generation
- Water Treatment

A measured step forward...

A lot of companies make Chemical Feed Systems. To stand out from the rest, you need to be better than the rest. That's why Chemical Feed Systems from Lutz-JESCO America are assembled in our factory using precision tools. We use our own pumps and accessories, so that you get the benefits of consistent design. Every unit is thoroughly tested for flow and performance before it leaves our factory. Why? Because quality and reliability aren't things we take lightly, and we don't want our name on anything that doesn't meet our high standards of excellence.

Every Chemical Feed System we sell comes backed by our experience and reputation. You also get:

- Established written specifications and drawings for easy system selection and integration
- Access to design, layout and engineering assistance before and after your purchase
- Experienced, knowledgeable and responsive customer service

Trust your chemical feed application to a system from Lutz-JESCO. Contact Lutz-JESCO or your local rep to discuss how we can craft a Chemical Feed System that meets your needs and exceeds your expectations.

Lutz-JESCO America Corporation Chemical Feed Systems...designed, built, and backed by one company.

Turn-key Solutions to Meet Your Needs

Skid Mounted Systems

Skid mounted systems accommodate larger pumps, so they are ideal for larger flow applications.

- Conveniently pre-packaged on our custom-made skids; ready for immediate use.
- Design allows them to be mounted to the floor next to storage tanks.
- Ideal for flooded suction.
- Systems offer containment, so chemicals are contained in case of a leak.

Tank Mounted Systems

Tank mounted systems give you chemical storage, metering and mixing in one convenient package.

- Conveniently pre-packaged on our custom-made skids; ready for immediate use.
- Less permanent design, so ideal for temporary installations.
- Easily relocated as application needs change.

Wall Mounted Systems

Wall mounted systems accommodate larger pumps, so they are ideal for larger flow applications.

- Smaller flow, limited space
- Mounted directly above chemical storage tanks or totes
- Offer a space efficient design (smaller footprint)
- Accessible design for easy maintenance
- Works in conjunction with TOPAX Controller or other chemical control equipment

Custom Systems

Lutz-JESCO America can design and build a custom Chemical Feed System that meets your specific application needs.

- Fully tested and calibrated.
- Includes all supporting documentation.
- Competitive delivery times.
- Can include any combination of these features:
 - Control Panels
 - Custom Materials of Construction
 - Flow Measurement
